About me

I'm passionate about video game. I **love creating experience**, might it be pen and paper role playing game, board game or video game. As a Designer I'm always **eager** to **learn** new thing. I have the skills to **prioritize** the **important task** first. I can quickly reassign important task when needed. I take the **initiative** to **communicate** any **problems** that emerge that need fixing. I'm also a **team player** that will bring a relaxing ambiance to the team.

Proficiencies

Unity

Unreal Engine 5e
